Suggestions

- **Limit STSMs per partner & call to 1 per call**
E.g. 5 applications to one lab in first call (4 of them from the same lab)
- **Reject STSMs which are applied for by the supervisor**

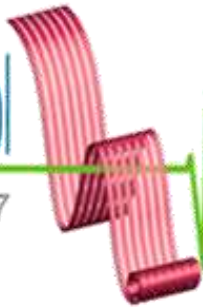

FAQ and remarks

- **Change in STSM dates: If your dates are not definitive when you apply or must be changed for a justified reason:**
 - **Notify us a.s.a.p.!!!**
 - **Do not download the Grant Letter!!** (dates in e-COST cannot be changed once the Grant Letter is downloaded and you could have problems to be reimbursed)

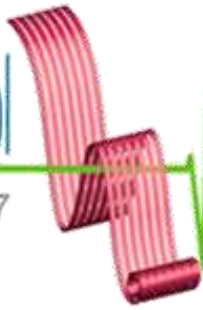

FAQ and remarks

- **STSM reimbursement is a grant: No expense receipts are needed.** The STSM report + letter of approval by the host researcher are the proof of a STSM and the requirement to be paid.
- **Submit the report within 30 days of the end of your STSM!!** It is necessary for reimbursement.
- **If your STSM finishes in May** (last month of project year), **submit the report a.s.a.p. after you finish** (Payments close at the end of the project year).

FAQ and remarks

- **Please keep your application short**
(3 page motivation letters... a bit too long)
- **Please note the possibility of extended STSMs for ESR**
(3500€ for up to 6 months)
- **Hint for reviewers: no positive/negative approach or reject/accept ratio is needed. We'll rank by score and decide how much money we can spend.**
- **Proposal quality in the call extension was sometimes poor.**

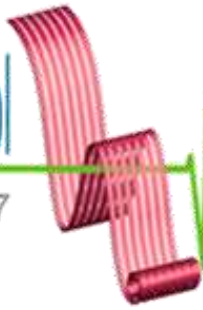

FAQ and remarks

In case of doubt always ask first!!!!
